

1st November 2018

Dear parents and carers

As promised in Mrs Sansom's recent letter about fundraising plans for this year, we are now pleased to introduce our maths sponsored event for the autumn term. The aim of this event is to support your child's learning of the multiplication tables since this knowledge is fundamental to your child's success in maths. The funds raised will be used to purchase additional maths resources for use in maths lessons and across the curriculum.

We would like your child to practice relevant multiplication tables at home over the next few weeks. There are many songs, hints and tricks on YouTube which may help your child to learn them in a fun way (please supervise any search on YouTube to ensure your child does not access unsuitable content). There is of course TT Rockstars too and www.mathsisfun.com/timestable.html is a good resource too.

We hope that friends and relatives will sponsor your child to accurately complete a range of questions based on the multiplication tables that they have been learning, recording their details on the sponsor form (attached). Children can choose one of the following challenges:

white Only	White and Yellow	White, Yellow and Green
Out of 80	Out of 119	Out of 144

Expectations for times tables for each year group	
Year 1	2, 5 and 10
Year 2	Revision of 2, 5 and 10
Year 3	3, 4 and 8
Year 4	Up to 12 x 12
Year 5	Revision of up to 12 x 12
Year 6	Revision of up to 12 x12

Please return the sponsor form by Friday 23rd November. The event will take place during the week beginning Monday 26th November. The forms will then be 'marked' and returned to you by Friday 30th November so sponsor money can be collected and returned before the end of term.

Please talk to your child's class teacher, or catch me on the playground before or after school, if you have any questions about this.

Thank you in advance for your support – we hope that you and your child have fun with maths!

Your sincerely

Miss Bain, maths leader
