

I am going to go back to school

My name is and I go to Branfil

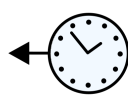

Primary School.

School has been closed for a little while. When school was closed

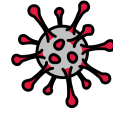

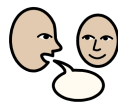

I was learning at home with my family. This was

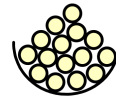

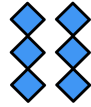

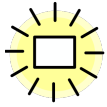

good. Some children were at home with their families too. This

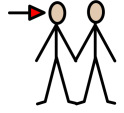

is because of the Coronavirus.

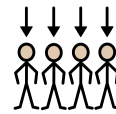

Lots of people have been talking about Coronavirus because it is a

new illness. It is similar to having flu. Lots of

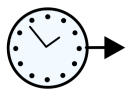

adults and children are getting good at getting better when they

get flu. This is good. This means that all children and adults

can now go back to school.

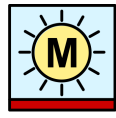

I will be going back to school. This is good. My first day at

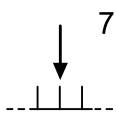

school

will be

Monday

7th

September.

This is

good.

Some things

will be

different

in school.

Some

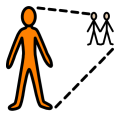

differences

I will

see

will be

social distancing

and

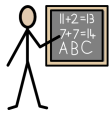

washing our hands

a lot. This is

OK.

My teachers

will help

me

to remember

what to

do.

Being at

school

is

good.

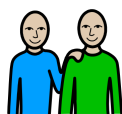

I

will

see

my

friends.

We will do lots of

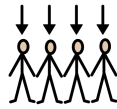

fun

activities.

If I am worried an adult will help me. The adults in

school know how to keep everyone at school safe. This is good.

It is good to be at school. It will be fun.
